

High School Students' Participation in Extracurricular Activities

Publishing reporting requirements pursuant to the enactment of 3SHB 1660

Effective: June 11, 2020

Seattle Public Schools is committed to making its online information accessible and usable to all people, regardless of ability or technology. Meeting web accessibility guidelines and standards is an ongoing process that we are consistently working to improve.

While Seattle Public Schools endeavors to only post documents optimized for accessibility, due to the nature and complexity of some documents, an accessible version of the document may not be available. In these limited circumstances, the District will provide equally effective alternate access.

RCW Requirement to Post Data Related to Low Income High School Student Participation in Extracurricular Activities

Pursuant to the enactment of 3SHB 1660 revising RCW 28A.325.050, school districts must collect, calculate, and report the following to OSPI and make the information available on each school's website:

- Data related to students in possession of an ASB card and student participation in school-based athletic programs/activities for each high school containing grades 9 thru 12.
- Calculate whether an “opportunity gap” exists for each school. The “opportunity gap” in athletic program participation is the difference between the percentage of high school students who are low income, possess an associated body card and participate in an athletic program from the percentage of students who are not low income, possess an associated student body card and participate in an athletic program.

Seattle Public Schools' extra-curricular athletic programs and activities are a component of students' Associated Student Body activities.

The posted data provided in this publishing is unaudited and ensures Seattle Public School's compliance with RCW 28A.325.050 and is not representative of a school's full fiscal year athletic activities and programs.

Questions regarding the posting of the ASB Funds report may be directed to:

Extracurricular Participation Opportunity Gap %:	17%	Gap Plan Required?	Yes
<p><i>The intent of ASB Card Possession/Extracurricular Activity Gap Plan is to reflect on and identify additional barriers that prevent students who are low income from participating in optional, noncredit extracurricular activities such as clubs, school events, and athletics. Please share your ASB and athletic fee data with your ASB student council before filling out this gap reduction plan. Gap Plans for 2022-2023 are required for either Opportunity Gaps over 12%.</i></p>			
<p>1. Our school used the following approaches to determine barriers to ASB card possession and/or extracurricular participation:</p>			
			Yes/No
Survey students on their participation			No
Survey parents on their students' participation			No
Evaluate required factors for participation (transportation, materials/uniforms, etc.)			Yes
Compare school data to other schools with similar demographics			No
Conduct a cost benefit analysis of offerings			No
<p>Other: ASB cards are not promoted as a required item for the student body beyond certain group participation. The ASB has moved to supporting groups with funding via ASB with ASB card purchase: However, post COVID students are still not seeing the benefit of purchasing an ASB card.</p>			
2. What are some of your students' barriers to student possession of ASB Cards?			Barriers
Interest			Yes
Timing			No
Identifying eligible students			No
Communication/Marketing			No
Cultural responsiveness/awareness			Yes
<p>Other: If students don't attend sporting events or dances it wont benefit the students. If students don't play any sports, ASB, talisman, shingle, cheer, and marching band it won't benefit them and they won't have any interest to buy a card.</p>			

3. What are some of your students' barriers to student participation in extracurricular activities?	Barriers

Other:
 Students felt the timing of events that they could use the ASB card for was too late. It doesn't give enough discounts to get into sporting events. Some hated using SchoolPay. People also had an issue that they couldn't pay with credit, debit, or applepay.

4. Describe the action steps the school/district will take to reduce the opportunity gap in student possession of ASB cards and/or participation in extracurricular activities for the up coming school year.

We actually have a large number of students that participate in extra curricular activities. Over 1000 athletes for a population of 1600 and over 700 students went to our Homecoming Dance this year, up from 425. We do not deny students the opportunity to participate or receive ASB discounts if they can't afford it.

Other:
 Commitment to varsity teams can be very time-intensive. Lack of home fields or extra gym space increases time commitment to athletics due to extra transportation requirements.

4. Describe the action steps the school/district will take to reduce the opportunity gap in student possession of ASB cards and/or participation in extracurricular activities for the up coming school year.

Advertise more, especially emphasizing financial support resources as well as the process for accessing financial support. Emphasize & make more accessible the FRPL forms & include process for accessing FRPL ASB cards both to students & families. Internally audit our own ASB members for ASB car purchases & increase accountability for activities with high student participation numbers like robotics & DECA. Advertising incentives much more, come up w/a list of incentives. develop internal protocols for ensuring students who need assistance receive it (this is a staff-led process)

<p>Other: We believe that the 15% opportunity gap statistics are not accurate for our student body and only captures athletics, but not the students that are participating in clubs, dances, cultural events and other student activities. We are also unable to determine the % of student that participate in these activities that qualify for low income status because that is no legally info Activity Coordinator or Fiscal Specialist to access to.</p>

Other:
 Most of our clubs and activities are open to all, there are a few sports teams that have to "cut" players based on the amount of coaching staff we are allocated. We could have more students participating if we have more stipends for coaches.

4. Describe the action steps the school/district will take to reduce the opportunity gap in student possession of ASB cards and/or participation in extracurricular activities for the up coming school year.
 We have been working with students to craft events and clubs that are inclusive of their culture and interest. All clubs are Seattle are open to all students with no cost or qualifications. We would love to change the bell schedule to have more opportunities (one lunch or 8 period day) for students to plan and participate in activities during the school day. Some students that don't participate in after school activities or sports report that this is because they have other responsibility such as a job, or child care for younger siblings.

Other:
 Barriers to our students with participation is transportation - freshman & sophomores' getting to different practice locations as we do not have fields on campus. The travel time to and from off campus practice hurts our students abilities to participate in sports.

4. Describe the action steps the school/district will take to reduce the opportunity gap in student possession of ASB cards and/or participation in extracurricular activities for the up coming school year.

Our School will continue to push for facility upgrades on campus. The school district needs to take a long look at the bus system and what needs to be done to fix their issues. There is nothing the school can do to fix the issues with the transportation dept.
